

How to Place Your Arcade's Logo in NYC Bungee

To replace the image shown on the blimp in game with your own custom logo, please follow these steps:

- Navigate to %userprofile%\AppData\LocalLow\Blackwall Labs\NYC Bungee\CustomLogo (if this folder doesn't exist you should create it).
- Place your custom image* in this folder.

*The image must be named exactly "Logo".

It must be in JPG format, and the image ratio should be 97:25.

A good resolution at this ratio is 2048 x 528 pixels.
